

ATTACHMENT A

This claim is based on VTi transmission-related expenses and losses I incurred in connection with my Saturn vehicle and which are reimbursable under the Saturn VTi transmission class action settlement and resulting judgment. (*Kelly Castillo, et al. v. General Motors Corp.*, Case No. 2:07-CV-02142 WBS-GGH, U.S. Dist. Court for the Eastern Dist. of Cal.) There currently is an adversary proceeding pending in this Court against New GM in which it is alleged that New GM assumed the obligations of Old GM under the settlement and judgment. I am submitting this claim form in the alternative, without waiving my right to full compensation from New GM under the Saturn VTi settlement and judgment in the event the Court determines that New GM assumed Old GM's obligations therein, in which event this bankruptcy claim against Old GM may be considered withdrawn.

It is my understanding that class counsel also will be filing a proof of claim on behalf of the entire class. My individual proof of claim for past reimbursable expenses and/or past trade-in loss supplements and supports the class-wide claim to be submitted by class counsel. In support of my claim for the coverage and benefits provided under the Saturn VTi settlement and judgment regarding future reimbursable expenses, I rely on the class-wide claim to be submitted by class counsel.
